

Real Estate Assignment

Module 2

Photo Essay

Borrow a digital camera from Mr. Kane. Your assignment is to take at least two pictures of all the different kinds of real estate you can think of. These should include AT LEAST the following:

- Inexpensive Residential
- Expensive residential
- Ranch/Agricultural
- Multi-unit
- Condos
- Commercial
- Industrial
- Retail
- Specialty Use

Also, include examples of deferred maintenance properties and functionally obsolete properties.

After you have taken the pictures you will turn in the camera and a written listing of the real estate categories and the pictures taken.

Since I do not have enough cameras for everyone you will be required to take turns. Therefore, when you check out a camera it **MUST** be turned in the next class period.
